

INSTALLATION INSTRUCTIONS

PINCH TAB REAR WIPER BLADE

Lift the car's rear wiper arm off the rear screen.

To remove the current wiper blade pinch the tabs on both sides of the connector and rotate the wiper away from the arm.

To fit the new Ezywiper blade, insert the tab (see inset) at the top of the wiper into the arm.

Rotate the blade towards the arm while pinching the side tabs until the blade locks into place.

Don't forget to remove the protective sleeve from the Ezywiper blade before placing the arm back on the rear screen.

For installation videos and more info see ezywiper.co.nz
